Partner With GluFloat: Help Your Audience Eat Well With Diabetes and Earn While You Do It

GluFloat is a digital health company that provides personalised food recommendations and guidance for people living with diabetes.

Every day, GluFloat tells each person what to eat for breakfast, lunch and dinner. It uses the Nigerian food they already know and love, in the right size for their sugar. It also makes a simple report they can show their doctor.

Millions of Nigerians live with diabetes, and most of them are only told what to stop eating. We would love your help to reach them. In return, you get a share of every fee they pay us.

What Does Your Audience Get?

- A code with your name on it (for example, **CHIOMA**)
- A **7-day free trial**. They do not need a card.
- After that, **20% off their first 3 months** on any monthly plan
- A link that adds your code for them. They can also type your code in later, any time during their free week.

What Do You Earn?

- **40% of every payment** from each person you bring
- This counts on every plan, monthly or yearly.
- You earn for **12 months** from their first payment, as long as they keep paying.
- Once 50 of your people have paid, you get **50% of every new payment**.

Your share is worked out from what GluFloat receives after the payment company takes its small fee. Here is roughly what that looks like:

Monthly plan	Basic	Plus	Premium
Normal price	N1,500	N2,500	N4,500
What your people pay in months 1 to 3	N1,200	N2,000	N3,600
What you earn each month, months 1 to 3	about N473	about N788	about N1,378
What you earn each month, months 4 to 12	about N591	about N945	about N1,733
What you earn from one person who stays 12 months	about N6,700	about N10,900	about N19,700

If 100 people stay on Premium for a year, you would earn about N1,970,000. This is only an estimate, because people choose different plans.

How and When Do You Get Paid?

- We pay into your bank account once a month. There is no minimum amount.
- We only pay earnings that are at least 14 days old, so a refund never gets mixed in.
- You can check your sign-ups and earnings any time on your own private page. It never shows anyone's name or health details.

What Do We Ask of You?

Just three things:

- **Use your own words.** Share GluFloat whenever it suits you. We will send you a few talking points to help.
- **Keep it true.** Please do not say GluFloat cures diabetes, replaces medicine or a doctor, or lowers sugar by a set amount. If a post says any of these, we will ask you to take it down within 48 hours.
- **Follow the rules.** Your posts should follow each platform's rules and Nigerian advertising law. This keeps us both safe.

How Do We Keep This Fair for Both of Us?

- **You are free.** You can still work with other brands.
- **If we stop working together.** Either of us can end the partnership with 14 days' notice. You will still earn from the people you already brought, for the rest of their 12 months, unless a post broke the "keep it true" rule.
- **Our name.** While we are partners, you can use the GluFloat name and logo. Your content stays yours, and we may share your GluFloat posts with credit to you.
- **Privacy.** We never share any user's name or health details with you. The Nigeria Data Protection Act requires this.
- **Independence.** You are an independent partner. You are not an employee or agent of GluFloat.
- **Changes.** If we change anything, we will tell you 30 days before. A change never touches money you have already earned.
- **If we disagree.** We will talk first. Then we will try mediation in Lagos before going to court. Nigerian law applies.

The Bottom Line

Your audience gets a simple way to eat well with diabetes, and you earn from helping them for a whole year.

If this sounds good, just send us a "Yes" by email or WhatsApp. We will send you your code, your link and talking points within 48 hours, and you can start whenever you like. Your "Yes" is all we need to begin on these terms. If you would also like a signed agreement, we are happy to prepare one. We would love to have you with us.
